Technical Skills

Backend: C, Laravel, PHP, MySQL
Frontend: JavaScript, Vue.js, React.js, WordPress, Tailwind CSS
Version Control: Git, GitHub
Tools: Figma, Canva, Asana, Slack, ChatGPT

Projects

Ecommerce Website
Personal Project | Laravel 12, Vue, Vue Router, Vuex, Inertia, Tailwind CSS, MySQL

- Developed a fully functional e-commerce platform with Vue.js for the frontend and Laravel for the backend, ensuring a seamless shopping experience.
- Designed an admin panel to manage products, orders, and users efficiently, improving store management workflow.
- Implemented user authentication and authorization using Laravel's built-in authentication system.
- Integrated MySQL database for storing product inventory, orders, and customer details.
- Enhanced UI/UX with Tailwind CSS, improving responsiveness and user experience.

Task Management App (In Progress)
Personal Project | Laravel 12, React, Redux, Laravel Sanctum, DndKit, ShadCN UI, Tailwind CSS

- Developing a full-featured task management system inspired by Asana, with role-based access and user authentication.
- Building drag-and-drop task boards using DndKit for intuitive task organization.
- Setting up user and project management, real-time task updates, and collaboration features.
- Using Redux for state handling and Laravel Sanctum for secure authentication.
- Designing a clean, responsive UI with ShadCN components.

Relevant Experience

Blend IT   Tagbilaran City, Bohol
Web Developer   September 2023 – December 2023

- Contributed to a data tracking system using Vue.js and Laravel, resulting in a 10% increase in data accuracy for affiliate marketing revenue tracking.
- Improved backend functionality by integrating PHP, Laravel, and MySQL databases to handle SQL and JSON data, enhancing user interaction and data display.
- Collaborated with team members to ensure efficient workflow and project completion.
- Synchronized product stock between two WordPress sites using the WooCommerce plugin and Erply inventory management system, reducing stock discrepancies by 25%.

Blend IT   Tagbilaran City, Bohol
Web Developer Intern   February 2023 – May 2023

- Designed and developed responsive web app prototypes using Figma, HTML, CSS, and JavaScript, aligning with design mockups and wireframes.
- Transformed static web apps into dynamic WordPress themes, optimizing page loading time by 40%.

Education

UNIVERSITY OF BOHOL   Tagbilaran City, Bohol
Bachelor of Science in Computer Engineering   June 2023
